

Calbrite™

Stainless Steel Conduit Systems

Stainless Steel Two Hole Straps

Features:

- Manufactured in type 316 stainless steel to meet any stringent sanitary condition
- Polished with standard "brite" finish to increase corrosion resistance and aesthetic appearance
- Designed for use with stainless rigid, stainless light wall, galvanized, & aluminum conduit
- No package qty. required

Certifications and Compliances:

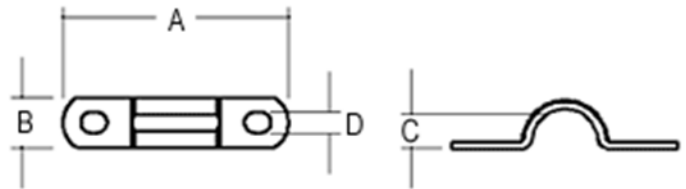

Calbrite stainless steel two hole straps are fabricated to UL and ASTM 167 standards. Manufactured in the United States

Applications:

Heavy duty type 316 stainless steel two-hole mount straps are great for securing and mounting conduit, tubing, & cable in corrosive environments.

Industries Commonly Served:

- Food & Beverage Production & Distribution
- Chemical Plants
- Water & Wastewater Treatment
- Pharmaceuticals & Cosmetics
- Refining & Extraction Sites
- Petrochemical Operations
- Marine & Coastal Facilities
- Pulp and Paper Mills
- Along with other corrosive environments

Size	Part Number	A	B	C	Bolt Hole Size (D)	Weight (ea) per lb.
