

STAINLESS STEEL POST BASE

Features:

- Manufactured in both type 304 and 316 stainless to meet any stringent sanitary condition
- Polished to a bright, easily maintainable finish that is modern, attractive, easy to clean, and that also enhances the surface's resistance to pitting and bacterial corrosion
- Fits 1-5/8" Channel
- Calbrite stainless steel strut, fittings functions in exactly the same way as any other metallic strut

Certifications and Compliances:

- Calbrite stainless steel post bases are fabricated to meet UL standards

Applications:

The Calbrite system of metal framing is based on the use of a continuous solid and slotted channel, and a series of brackets and fittings, which can be fastened to it any point. With Calbrite channel and components, racks, supports for conduit, wiring, and electrical equipment, machine frames, and a limitless variety of structures can be built rapidly, simply and economically.

Industries Commonly Served:

- Food & Beverage Production
- Marine & Coastal Facilities
- Chemical Plants
- Water & Wastewater Treatment
- Pharmaceuticals & Cosmetics
- Refining & Extraction Sites
- Petrochemical
- Pulp & Paper Mills
- Along with other corrosive environments
