

STAINLESS STEEL WEATHERPROOF DEVICE BOX COVERS

Features:

- Manufactured in type 316 stainless steel for increased corrosion resistance
- Polished with standard "brite" finish to increase corrosion resistance and aesthetic appearance
- Mounts to all Calbrite® stainless steel device boxes
- Neoprene gaskets included
- Approved for use in damp environments
- No package qty. required

Certifications and Compliances:

- UL 514D / CSA C22.2 No. 42.1. Listed
- File #E307133
- NEMA 3R rated in accordance with UL50E

Material

- Body - 316SS
- Gaskets - Neoprene

Applications:

UL Listed for wet locations. These heavy-duty stainless steel single gang covers used for switches and GFCI receptacles, and provide high strength, superior corrosion resistance, and wide temperature ranges for use in harsh environments. The spring loaded, self-closing lids cover with neoprene gasket and stainless steel spring provides weatherproof protection.

Industries Commonly Served:

- Food & Beverage Production
- Marine & Coastal Facilities
- Chemical Plants
- Water & Wastewater Treatment
- Pharmaceuticals & Cosmetics
- Refining & Extraction Sites
- Petrochemical Operations
- Pulp & Paper Mills
- Along with other corrosive environments
