

STAINLESS STEEL EMT

Features:

- Manufactured in type 304L and 316L stainless steel to meet any stringent sanitary condition
- Polished with standard “brite” finish to increase corrosion resistance and aesthetic appearance
- Calbrite is the exclusive manufacturer of stainless EMT
- Stainless steel EMT requires no threading and is joined together by utilizing Calbrite EMT set screw or compression fittings, providing simplified installations and reduced costs
- Lighter weight provides cost savings on installation and shipping (weighs 58% less than stainless steel rigid conduit and 43% less than IMC)

Certifications and Compliances:

- UL/cUL 6A Listed
- UL File # E315441
- UL 797A Listed
- NSF/ANSI 169 Certified
- Inclusive for installation in accordance with Article 358 of ANSI/NFPA 70, National Electrical Code (NEC)

Applications:

Stainless steel EMT conduit and fittings combine strength with ductility, resulting in an affordable, lightweight and easy-to-handle conduit assembly. EMT can be installed indoors and outdoors in accordance with UL and NEC® requirements.
