

December 13th Price Increase Update

November 12, 2021

To: Calbrite Agents and Distributors

Atkore Calbrite will be implementing a price increase effective December 13th.

On average, List Prices for stainless steel conduit will increase 50%, while stainless steel fittings and accessories will increase 15%. While we are constantly working on productivity and material savings, the dynamics of the raw materials markets as well as supply chain issues have led us to this decision.

Updated price sheets are attached to this email.

Please contact your Regional Sales Manager or me with any questions you have concerning this announcement.

As always, we thank you for your continued support.

Matt Westerfield

Product Manager - Calbrite

Corrosion Resistant Conduit

A handwritten signature in black ink that reads "Matt Westerfield".
